Life Changing Products That Transform Lives

Before

May 2011

Arbonne has truly changed Jackie's life! Not only is eczema incredibly unattractive, but it ITCHES like crazy!! For six long years, Jackie searched for ways to heal severe eczema on her legs and arms with no success. After numerous clinic visits and spending thousands of dollars in the process, her dermatologists told her that there was nothing that she could do. The only "remedy" that was prescribed and recommended were steroids. Jackie didn't like the idea of putting steroids on her skin for the rest of her life!

At last, in May, 2011, Jackie began applying Arbonne ABC Baby Oil and Diaper Rash Cream. Immediately, the itch subsided. A month later Jackie began taking Arbonne Digestion Plus and saw amazing healthier, new skin.

Today, Jackie is nearly eczema free! Now, she can wear skirts and swimsuits again! She was even able to take a trip to Wisconsin Dells, which she never would have done prior to Arbonne!! Thank you, Arbonne!!

I used Arbonne's Made in the Shade Self Tanner, SPF 15 on one leg for just five days. I was amazed at the even, sun-kissed results! After a week (7 days) of NOT reapplying it didn't fade much."
